

Recd.
March 31

28 George St. London E.C.

17th March 1891

Dear Dr. Dawson

A pressure of engage-
-ments for two or three
weeks past has, I am
sorry to say, delayed my
reply to your letter of 13th
ult. I was delighted
to hear that you had
practically finished your
part of the little book and

the British Colonies. I
have no doubt it will
be just what is wanted
for the Geographical Series.

With regard to illustrations
about which you ask I
would rather be guided
by you in the choice of
them. What we want
is say 12 or 15 thoroughly
characteristic figures 7

scenery, towns, Indians, or
animals - such figures
as would give a clear
and vivid impression of some
of the facts you give
in your text.

There are probably some
that might be derived
from the Reports of the
Canadian Geol Survey, and
you may be able to
supply photographs or

drawings for the rest.

If you think any of
the illustrations in the
Survey Reports could be
used with you give
me references to them.

I am glad of this
opportunity of congratulating
you on the award of you of
the Bighy medal. It was
a great pleasure to me that
it fell to my lot to
present it for transmission
to you.

Kindly let me have the recd.
at your earliest convenience
Yours very truly
Wm Geillie
