My dear Deeworm

I am well aware that
the evidence about the Rail
Inquiry to which I had access
was incomplete; and I took
care to give my opinion
on the facts, which, as you will
know, are undisputed

But I really do not see
why you should not look

at what I wrote, & you like
to do so, and I value it -

Under the circumstances, however
the document must be
considered private & confidential
I can undertake no pledge that
I would keep it to myself; but
having written the report
at his request - I would
rather leave it to him

to use it -

Please return the paper to
me when Dr. Dawson has
read it & Mr. Sumner's Dawson
has not.

Very
Yours very truly
W. H. Stanley
