2. 2. 97.

My Dear Doctor,

The enclosed was written before I read you of the 19th Jan. and will show you my views of Dr. Jordan. In the whole literature of the question I do not remember having seen a worse piece of special pleading. Whatever Dr. J. may be as a lecturer or preacher. he is a poor hand at constructing a

consistent argument.

The old fallacy of the Sur-  
plus value is still alive -  
Don't you think you might  
when the Pr. Ass<sup>n</sup> meets in  
Canada this year read a paper  
on the "Fallacy of the surplus value"  
as exposed by Dr. Jordan?

McCann is in Dundee trying  
I presume to settle his differences  
with Thompson, and I have  
not heard from him since

be fast.

We have not yet got either  
of our naturalists reports.

but I hope they will have a  
little more regard to 'consistency'  
not to say 'logic' than Dr J's  
effusion.

Yrs very truly

John Anderson
