Dear Ruth Ann,

I have taken
it for granted that Eva
and Mamma have
been keeping you
informed as to our
family matters, the
most interesting of
which are Eva's suc-
cessment to the others
and William's increase
of salary, and the

Oct 29/24

Dear Workman
In respect for Mrs
Chemical engineering;
So as I have been
somewhat occupied
I have not written
lately, and Mamma
has mentioned to
me your employment
at Maidstone and
return to Sweden.
Now that you

are back in London,
I desire to remind
you that, as I told
you when here, I
have been accustom-
ed to a Savings Bank
deposit in four interest,
and that of your
need funds with
reference to any oc-
cupation in London
in the present winter,

If you will either
write or telegraph I
can at once place
a sum to your credit
in London. Please
do not hesitate about
this, as the money
is at your service
and all here are well
provided for.

Mr P. Redpath and
Mr C. H. will both leave
for England end of
this week or next, and
if you will look up Mr R.
he can give you news as to
matters here. The College

is prospering, and has
 a larger no. of students
 than ever, and the
 state of trade is
 somewhat better
 to be good. We have
 had a few weeks
 of fine autumn weather,
 but it is now cold
 and stormy, looking
 like an early winter.

Hospital matters
 are still unsettled. Prof.
 Wm. Sumner is in very
 inferior health & fears

not wish to resume
his former employment.

We had a
telegram from George
yesterday from Kansas
City, stating his
return to that
place and speedy
departure for Ottawa.

I can assure you have
very thankful to hear of
his safe return. Dr. Fair,
William's increase of salary,
up to \$2000 per annum, is also
very gratifying, and though
we must remain the subject
of living on, I hope she will
be happy.
Ever yours
J. M. D. D. D.
