Dearest - Hankine,

I hope I am  
not too late to catch you in  
your temporary resting place  
at Mexico - I can not manage  
to answer your very kind  
letter sooner - It is pleasant  
to know that you are finding  
life more smoothly & more  
& a happier atmosphere than  
give you clearer views as to  
the future - Though if a firm  
falter be the basis leaving from  
day to day, & not taking these  
long sights ahead seems prefer-  
able -

As to Eric I have had his  
heart & lungs both examined  
by Braune & Roddick - & they seem  
sound enough - The real trouble

Heads - I will be almost a relief - for the plan  
has been successful, & I had had no other  
of for the last 11 months, & I had another in  
the fall the amount of several years  
is - has for last - also the former  
was at at - A's last week collecting  
the few memories, after the three remaining  
nothing - There will be a real of us on the  
20 to of I hope the first - you need - on the  
with no more before the end of the month  
& the acres required etc - is - inches 6  
to to England in April about - 10 to as the  
is is very easy & nice grow

All the children are well, & in  
the main, & being on well. There is nearly a  
fall as I see - & the baby beautiful, & really  
something out of the common - though not for

seems to be indigestion, rather  
a bad thing for a cad &  
running into various organs  
on one hand & the other, your  
advice has been useful, & I feel  
the one thing is out of danger  
life - & I hope I may be able to  
arrange for this in some way  
He is 14 today, & it seems hard  
to realize it - he has taken a  
great interest in his college  
work, & since the Latin & Greek  
were dropped, he has been able  
to overtake it, - he goes to 4 gym-  
nastics - elocution, & all the  
debating meetings - w<sup>h</sup> - I make  
as much as the classes, & has  
been taking the practical  
chemistry w<sup>h</sup> - will be so much  
off next year, if he goes into  
science -

Mother & papa are in  
melancholy res - about the house  
& really must move in next  
week, I think, several rooms  
will be in order by tomorrow  
night - & the poor old woman  
will soon be a thing of the past

my saying so does not count for much  
why you give us our value either you  
will be here, as it might alter when  
has the sea & so on, if we know when  
to work for you, & if you can show  
long = however the business is  
the household goods together for  
to a more - it is a great benefit to  
them so I will be glad - I hope will  
should be in better - I hope will  
in all to do well in this new venture  
But now I must - If I can  
copy was very pleased at being remembered  
by you in the willow - you will find by  
notwithstanding - He has not been out all  
winter, as yet - It was very  
agitation - I must - I must
