

106 Valentine Lane
Yonkers, N.Y.
April 10, 1922.

Dean J. Whitridge Williams
Johns Hopkins University
Medical Department
Baltimore, Md.

Dear Dr. Williams:

Your letter of April 5 was received and I am ~~very~~ ^{much} pleased at the honor you do me in making this offer. I had thought to answer you before this but the desire to think the matter over from every angle has delayed me.

Dr. Whipple expects to be able ~~to be able~~ to clear up my relationship to the Department of Neurology here by the end of the week. That may ~~clear~~ ^{answer} up some of my problems.

If I should come to Baltimore there are several things I should want understood first. But I shall write you again in a few days.

with

With best regards,

sincerely yours

Wilder G. Penfield.
