CUS417/107.85

Paris -16th.

(~~Oct~~ Dec. 1908 ?)

Dear Jacobs;-

I am sending you the Harvey diploma - facsimile which we have done at the College. I know you will prize it for your collection. Each fellow is allowed two, but I have induced friends to let me have others so as to send to the Libraries. Rolleston has sent Cushing one. I cannot find Vernon - nor can Seymour Thomas, but he hopes to get on his track. I am deep in all sorts of interesting things at the Library, but the time is so short, and I feel that I must see the Hospitals. Raymond had a great clinique today in hereditary optic atrophy - two families. He took me to the Ecole where I stayed until 4:30, then the Societé des Hopitaux until 6. They elected me a member at the last meeting. It is a most active Society. Chauffard is President. It is really delightful meeting these men and staying here long enough to get to know them.

I do hope Mrs. Jacobs keeps well this winter. My love and best wishes for the New Year to you both,

Yours as ever,

Wm. Osler.

Mrs. Osler has gone to Oxford to bring back Isaac.
