Dear Sir Tylor,

I am not acquainted with Morris's private address, & as I am uncertain whether he goes regularly to University College, I am obliged to trouble you to forward the enclosed

enclosed note to him, it being important that he should receive it without delay.

It is suggested (as I have been asked to do) that he should at once make personal application for the C. E. Ed^n Examinership which has now become vacant by W. Tuxford's resignation. The Council wish to see Morris some afternoon early next week.

Yours faithfully
F. A. Abel.
