Pittsburgh, Pa., U. S. A., June-7th-1916:

SUBJECT:

The Birds of North And Middle America,

Robert Ridgway,

Curator Division of Birds,

Washington D.C.

Dear Sir:-

I have received your bulletin # 50, on birds, and would say I am much intrested in colors (i-e) glass colors, and we go to the birds to get the same.

Would you please send me to the address named below any book that the government issue's or that your department issue's in colors for birds or fish, I can use this matter in my lectures, showing colors, in glass, as comparied to colors in birds,

Any thing that you may send me would regard it as a favor to help the trade along, and will return the compliment, I beg to remain.

Respectfully yours,

J. I. Arbogast
