D^r Friend

I send proofs for final correction & any additions you think fit — see that Textularia & Textularida are right — also if the Plural Bulimina is admissable — I dont see y^r mean about Ammodiscus & Lituola — being Genl & Brady's name Put in mem about Nonionina —

You see what Allen says about returning plates — Carter's

say Hollicks man is in town & wants work & would do the plates well for a reprint which he thinks would pay by sale of copies, but I have no cash & dont know any publishers who would undertake it She & Stiles desire to be particular

In haste

Yrs truly.

If any way of doing it occurs to you I am sure Brady would let Hollick to do the plates under his own Eye as he told me so & I think Hollick is short of work
