12.11.04

Dear Dr. Bowdler Sharpe

I must apologise for not answering your letter before & thanking you for your offer to supply me with arsenical.

I already have some arsenical soap & also Rowland Ward non-poisonous preservative

I have collected a few birds but they are very badly skinned & I am afraid they are not of much use.

I shall be going up into the protectorate next month. On inspection duty & possibly then I may come across some rarer kinds.

Yours very truly

C. D. Bartlett
