C. E. Beecher

BLACKER

YALE COLLEGE MUSEUM,

NEW HAVEN, CONN.

Nov. 10th 1888.

Professor T. Rupert Jones,

My dear Sir,

The pressure of affairs which had accumulated during my absence has relaxed and I am able to resume my belated correspondence. Pt I Leratiocaridae 4to and Scandinavian Phyllocarida Pts 1, 2, 8°, have been received from the Smithsonian. and I again wish to express my thanks for these publications

While in Albany, I requested that the last volumes of the Palaeontology of N. Y. be sent to you from the State Museum. I understand that they have been sent.

I can now pass judgement in cold blood on my recent visit to England. The verdict is to the effect that I derived much benefit, had a delightful time and made many most pleasant acquaintances.

Please present my regards to Mrs. Jones.

Very truly yours

Chas. E. Beecher.

BLACKER

273 Hudson Ave Albany, N.Y.
Feby. 9th 1885

Dear Sir:

From Prof. Whitfield I learn that you stopped in Albany last September desiring to see me. I am very sorry that I did not have the pleasure of meeting you and showing you my collection of crustacea.

I have to thank you for the following papers received today.
"Notes on the Foraminifera and Ostracoda from the Deep Boring at Richmond."
"On the Geology of South Africa."

Respectfully yours
Chas. E. Beecher.
