G. DAVIES SHERBORN
DONAVIT.

Dear Sir.

Through the kindness of Mr. Kirsten of the Brit. Museum, I have received a copy of your paper on Lichtenstein's "Catalogus". I thank you very much for this.
The title of the copy which I have received from Berlin is again different from that which is quoted from you. It is
Catalogus | musei zoologici Dr. Tessini | Hamburgi, d. 16. Majus 1797. | Auctionis lege distrahendi | continent (sic!) Insecta.
In this copy is not to be found "Lectis Tertia"; but I believe that my copy is the same as the Banksian Tract.
I am now working for explain all the generic and specific names of Diptera from 1758 to 1805, and your "Index" is a great help to me.
If you have others separata concerning old entomological works, as this upon Lichtenstein, I should be very obliged to you if you can send me some of these.
I am sending you by the same mail a few separata on this argument.

Very faithfully yours
