Dear Dr. Wood:-

I am deeply appreciative of your kind offer to permit Bird-Lore to publish the results of your studies of English aviaries. I should be more than glad to accept it, would its publication not require me to reject contributions on American birds which I feel should be given prior right in Bird-Lore. I think, however, that the New York Zoological Society would welcome a contribution from you on this subject for publication in their popular journal. If this idea appeals to you, I suggest that you communicate yourself direct with Dr. W. T. Hornaday, at the Zoological Society, Bronx Park, N. Y.

With renewed thanks, I am

Sincerely yours,

F M Chapman

My dear Dr. Wood:-

Thank you for your article on the Golden Doves of Fiji which, with the photograph, I shall be very glad to publish in a future issue of Bird-Lore. I will have the article set up at once and proof forwarded to you while you are still in London. In returning it will you be kind enough to give me a reference to the publication in which the illustration originally appeared, in order that due credit may be made in re-publishing it.

I am sorry that you won't be over here for our annual A. O. U. meeting in November.

Yours sincerely,

F M Chapman
