Mr. Robert Ridgeway,
Curator,
Smithsonian Institute,
Washington, D.C.

Dear Sir:-

I am very much interested in Natural History and particularly the departmant of Ornithology. I know the publications of the United States National Museum to be very helpful in the study of Natural History and if any of the publications are sent gratus I would like very much to be placed on the mailing list. If the publications are for sale only I would like to have list with prices. Are there any copies of your work, "The Birds of Middle & North America" for sale by the Museum? I have VoL. IV. and wish to secure the other issues.

Respectfully yours,

Howard E. Bishop
