THE ZOOLOGICAL SOCIETY
OF PHILADELPHIA

Dear Dr. Wood:

I have had much pleasure this morning in writing to Dr. Woodward an endorsement of your application for a grant from the Carnegie Institute. I also had a talk about it yesterday with Dr. Hutchison - I cordially hope the grant may be made - much to the advantage of Biological Research

With best wishes.

Yours sincerely

Arthur Erwin Brown

Dr. Casey A. Wood

Zoological Society.
[FAIRMOUNT PARK]
of Philadelphia.

Dear Sir:

Your favor of yesterday rec'd. The animal is the common seal of the North Atlantic, which is the only one which ever comes down to our shores - I would not care to purchase it unless it has been in captivity for a week or two, as the difficulty with these animals most commonly is to get them to feed - If it should do so & remain in good condition it would be worth about $25.

Yours truly

Robert Erwin Brown

Do you keep Island Canaries or
Cage Birds generally or Song-Birds?
If so, I will take all they can breed
us, at same prices we pay to Charleston
& Gunpowder Hawkers — £1. about per
Duck and £1 5s per Goose —

H. E. B.
