Dr. Casey Wood,
Stanford University,
Palo Alto, California.

My dear Dr. Wood:-

for the Hopkins Please find enclosed your check which, by the way, was made out for Charles Stedman. I suppose you had his name in mind when you wrote the initials "C.S." Mine, you know, are E.C. I am so glad you can get just what you want. I find that they are quite commonly used throughout the country, the different folds being made for a machine, or holder, that stands on the counter.

Billy send his love, as usual.

Sincerely yours,

Edward C. Bullin

Dr. Casey Wood,
Stanford University,
Palo Alto, California.

My dear Dr. Wood:-

I still have your check uncashed for the napkins, and have been having quite a time to find just what you wanted.

The Model Grocery tells me that the napkins are to be had in a large package containing a thousand, at $1.50; but they are folded in the square and merely have to have the two points folded toward each other to make it the same as your sample. Someone could be hired to do this folding. I should think that you could have that done at your end of the line. So if you wish the napkins, minus this extra fold, please let me know and I will send them to you.

Billy has whispered in my ear that he hopes he will never be forgotten by you or Miss Fyfe, though he asked me the other day what had become of Miss Fyfe, that she hasn't had any letter from her since she went away.

With all good wishes,

Sincerely yours,

B-W

Dr. Casey Wood,
Stanford University,
California.

My dear Dr. Wood:-

My aviary is all broken up, but I shall be very glad to get Mr. Carpenter to show you his birds - which you remember is just next door.

Some of my birds I took over to Catalina, and if you care to have my company I shall try and see if I can~~not~~ take you there. They have one of the best aviaries in the country in embryo and it is well worth seeing.

I am looking forward with great pleasure to seeing you and trust that you will bring Miss Fyfe with you, because "Billy" says he wants to see her again.

Yours very sincerely,

Edward S. Bull
