OLTEN, the 13th of Jan. 1919

Dear Sir.

What do you think of a Congress of Ornithologists, in Switzerland, next sommer? Will the Americans come or would it be better to wait another year? One day, we shall all be obliged to work together again. The Zoologists of Switzerland have never been good friends with the German mad professors-militarists, but they will try to understand them, not in their doing of to-day and before! The letters J get show always the same missing of truth and good-will: Every one is bad, but the Germans.

Believe me, dear Sir, yours truly

J. v. Burg
