BLACKER

April 3. 1873. –

Niddry Lodge,
Kensington.

My dear Sir.

If you will add a note it will save a mistake which was shewn and referred to. If you put in my woodcut of a glacier where it appears to. XII. 1 Slip 4. I don't care much about it but it will address the paper. –

I have altered nothing

Some pencil notes refer to controversy into which I do not desire to enter. I have added a note at the end which will satisfy the writer in pencil.

Yours very truly
