SAMUEL E. CASSINO
THE NATURALIST'S DIRECTORY
SALEM, MASS., U. S. A.

Dear Sir:

The new edition of the Naturalists' Directory; the "Who's Who" of Professional and Amateur Naturalists, is being prepared and will be issued early in1930. It will embrace North and South America and Great Britain and Colonies.

The names will be arranged alphabetically by countries (not by states as in the last edition). An index will be given by which one may easily designate people who are interested in any special subject.

send to Mr Gill

Will you kindly return to me the enclosed slip with O. K. or corrections by an early mail.

I am sending you a few slips for new names and hope you will send me addresses of your friends and acquaintances who should be included: I shall be grateful for any help you may be willing to give me in this way.

Sincerely yours,

Samuel E Cassino

Mr. J. A. Allen,

My Dear Sir;

As you advised me to see Mr. Brewster in relation to the wind val. of the Standard, I have called on him and he expresses himself as very highly pleased with the work and is very much inclined to think to write for it. He said he should see you and talk the matter over and give his decision. I feel quite sure you will use your influence in our behalf. Mr. Elliot is greatly pleased with the work and has agreed to do such portions of the work as we may wish of him. We also feel quite sure of Mr. Ridgeway. I sent you a few days ago pts. 1-12 of the Standard (all out), and trust you will accept them.

Yours resp.

S. E. Cassino

Dear Mr. Allen,

We have received from you a parcel containing pt 1 of Mr Barry's "Birds of Haiti & San Domingo". Was not this sent by error. If so we will return it at once.

We have arranged with Dr. Stejneger for a portion of the Bird volume. I hope to see

you — are busy and
ask you opinion
in re. the system we
proposes, as I believe
it is somewhat differ
from that usually
adopted by Americans.

Yours resp.

P. Learmont
