BLACKER

26. Nov 1861.

My dear Li

I have just received the enclosed for the Principal of the Engineers College at Rookee, to whom you and Mr Colvin of Bareilly were forwarded — the cases have reached in excellent order, and both Capt Williams the Principal & Mr Medlicott the Geol. Professor consider

the collection to be the most
valuable addition to the
College in the Geological
Dept. that they have yet
had — with my expression of
my own thanks for your kind
care in having undertaken such
a trust & care in mind, and
having executed it, so much
to the gratification of all
parties, believe me dear Sir
Yours
Prof. J. Cawthorn
Geological Surveyor of Nova Scotia

Robert Dawson Esq
&c
&c
Geol. Sur.
