Prof. R. B. Sharpe,

My dear Sir:-

Your favor of Jan.6th has been received. I regret exceedingly that the intelligence which has reached you concerning the post in the Museum of the University of Chicago is not correct. I suppose that the time is coming when there will be such a position and I assure you it will give us great pleasure to consider your name. At present, however, there is no such opening.

I remain

Yours very truly,
