December 10, 1919.

Dr. Robert Ridgway,
R. R. #7,
Olney, Ill.

Dear Dr. Ridgway,

I received your "third marked ballot" today. I am afraid I did not make myself entirely clear. Your first ballot was received and on the basis of the first preliminary balloting I sent you a second ballot giving the relative standing of the candidates, asking for its return marked. This second vote was to be the final one, but not receiving this ballot from you, I wrote again asking for your vote, and it is this which I have received today. You will receive ~~in the same package~~ later the results of the final balloting for your information. It is this ballot that will go before the Academy at its Spring meeting. It does not call for any further action on your part.

Regretting to have troubled you,

Sincerely,

T H Morgan

THM MM

P.S. The enclosed letter received today explains why your vote did not reach me before.
