Dear Mr Ridgway: We are sending Viburnums? to you from Clark Co. I think we are on the road to success with our Smilax. I asked a man what color the fruit of the smooth one we sent you is, & he answered at once. But he said it doesn't get ripe till towards x mas. He promised faithfully to send us the ripe fruit. We are hoping. We sent you Smilax bona nox & Viburnum rufidulum & seeds the other day. Your friends the Deanes
