My dear Sharpe,

I think "Man and his labour in the Straits of Malacca" would be a subject which I could not only treat Ethnologically but also Economically the labour question should be utilising from work classes.

Unaccustomed as I am to this kind of public speaking, I will nevertheless do my best with the greatest pleasure to oblige you & to further the good cause

but please let me know as early as you can what date I am fixed for.

Yours truly
