My dear Dr. Sharpe,

I got your note of 4th inst on my return here last night. I will look you up some time this week – probably Thursday.

No I do not know anyone of the name of Greene out East – but I have not been in N. Borneo for many years past.

Yours sincerely
Harold H. Everett

My dear Dr. Sharpe,

I find that my time is so fully taken up that it will be impossible for me to avail myself of your kind invitation.

The exact date of my return to the East is not fixed yet however & I will at any rate look you up at the Museum again before I start.

I am still going through Alpers' diaries &c & will forward to you any notes (ornithological) I may meet with.

Yours Sincerely
Harry H. Everett

Dear Mr Sharpe,

I should have answered your letter long ago but have been much from home lately & it slipped my memory.

My time is so fully occupied here that I have quite given up collecting myself & only employ native hunters at times. My collection are therefore small & I fear mostly uninteresting, but such as they are, I will certainly avail myself of your goodness & send them to you, either direct or through my brother.

The birds brought by Mr Slater were mostly collected near the Quicksilver mine at Tegora at an elevation not exceeding 1000 ft.

The wet monsoon is still blowing here & no skins can be properly kept but as soon as the weather breaks I will send a hunter away to some of the high mountains to collect birds & insects & will then send you a trial box.

Thanking you again for the trouble you are taking

I remain
Yours Sincerely

A. H. Everett
