Dear Mr Sharpe

When you send back my birds would you kindly let me of your men scribble down the names of the birds which you kept for the museum — as I should like to keep a list of what we bought home — I do not think we shall be off the Cameroons till well on in April now. Do you happen

to know the name of any
native at any place on the
W. Coast of Africa who could
skin birds & whom I could
take up & take down with me!

Yours very truly

A. F. Mockler-Ferryman
