HENRY GEORGE FIEDLER

SCIENTIFIC BOOKS AND PERIODICALS

89 Chambers Street

NEW YORK February 15th 1929.

Dr. Casey A. Wood,
Stanford University, Calif.

Dear Sir:

I duly received your favor of February 29th advising me, that you have a list of about 80 American Zoological Periodicals, of which the Mc Gill University requires complete or partical sets. In reply I shall be glad to receive the list of these periodicals and shall try to locate as many as possible. I understand that you wish to have quotations submitted on those, which are found or can be obtained from certain sources. You mention, that many of them are rare and out of print and without knowing any of the journals, which you have in mind, I wish to state, that in most cases it will be very difficult to obtain such journals within a limited time; I have experienced that often it has taken me years to get certain rare volumes in order to complete a set ; the trouble with American Scientific Periodicals is, that, when they are out of print, they are very difficult to obtain on account of the small edition they have been issued or through some unfortunate circumstances (destroyed by fire etc.) However I shall gladly try and shall be pleased to receive your list of desiderata.

Very truly yours

H. G. Fiedler

Feb. 9/29.

Mr. Henry George Fiedler
89 Chambers St.
New York City.

Dear Sir:-

I am now engaged in purdhasing periodicals on VERTEBRATE ZOOLOGY to fill wants in the McGill University. These desiderata have been divided into American and European and lists given to various dealers. Those in Europe, especially the Germans, not only search their own stocks but endeavor by correspondence and other means to locate items not on their own shelves.

I have now before me some 80 titles of American zoological periodicals of which we require complete or partial sets. This list is not in the hands of any other dealer. Many of the titles are rare and most of them are out of print.

Would you care to undertake the job of hunting for them, and to quote prices on them ? If so please notify me at once and I will send them to you.

I may add that the the conditions of the special Fund belonging to the Library of McGill University requires that we place a limit on the time allowance for reporting on these items. At first it was put for Jan. 15th, but that date has been advanced to July 15th, which will, I believe be sufficient to locate any of the titles available for purchase.

An early reply will oblige

Very truly yours
