Aves. Dees. 28 Beebe
~~Tropical~~ Wild Life in Br Guia

East Palo Alto, Dec. 4, 1928.

Dr. Casey Wood, - Henry Geo. Fiedler
Esq
Dear Sir, - 89 Chambers St
New York City

I do greatly appreciate the information you have promised as to what book will help me in classifying the birds he sees on the island of Aruba. He is on the engineering staff of the M. W. Kellogg Co., who are erecting an oil refinery there; but he is always very much interested in the birds, animals, & fish, of whatever region he is in. And he has never been in the tropics before. Aruba is a coral island, & little rain falls there, so cactus seems to be the main vegetation. But he says he would like to be able to classify the few birds he sees.

Thanking you sincerely,

Mrs. B. L. Findlay.

R. R. 1, 122, Palo Alto.
