My dear friend

Many thanks for the copy of thy paper on "Rolling & Casting of Metals" which Mrs Hart Rowley sent me. The subject is one of great interest & has been in our

respects rather than
kindness. My relatives
Dr Tyler & his party paid
us a very pleasant visit
yesterday, & they seemed
in a very flourishing
state. Our love
especially to Thy

Isabella & to your
dear children.

Believe me

Thy sincere friend

R W Hoa
