Dear Sharpe

Many thanks for the copy of your lecture.

From the date of your post-card it was evidently delayed in transitu. My assistant, who takes this letter, will receive the book, & I will let him know, at the Natural History, of its arrival. Many thanks.

Can you tell me how I can procure a skin or two of S. American true Bucco, to get remains of skulls out of. With kind regards

Yours very faithfully

A. H. Garrod.

Dear Sharpe

You have not sent us any intimation that you wish to have the skin of Licmia boyciana ♀ for the Brit. Mus. If you would like to have it, it could be mounted or prepared as you want it. Do you mind letting me know if you are going to have it

Yours very truly

Dear Sharpe

What is to be done with your Ceratodus? Is Sclater to have it. Mr Sclater wishes Mr Baldamus' specimen to be sent you also, what is to be done with it?

There are three or four other small specimens, one a little Silvroid, very common Dr Sutter says. Do you want it? If not its tail & limbs is a point of interest to me.

Hope to hear from you

Yours very truly

A. H. Garrod.

My dear Sharpe

I return with this note your two big bottles of Java Birds. There are a few which I have retained till you want them will return as soon as possible. You dont know how much obliged I am to you for your kindness in sending them to me. There are one or two without skulls

because I macerated them. If you will return keep them a little longer I shall be much obliged

Hoping the Ladies will read you safely Again thanking you

I remain

Yours very truly
