DEPARTMENT OF PHYSIOLOGY

March 22, 1918

Dr. Casey A. Wood,
Chicago, Illinois.

My dear Dr. Wood:-

It is a long time since I received a copy of your momograph, " The Fundus Oculi of Birds". I have used this book in reference with my medical physiologists and have found it very instructive and helpful. It seems to me such compatative researches are absolutely necessary to build up our best knowledge of physiology. I am glad to see that your plans include further editions.

I am curious to know how you have found the time to do the work with your busy practice.

Very truly yours,
Chas W Greene
