BROOKLINE, MASSACHUSETTS

Nov. 10th

Dear Mr. Mousley;

I am greatly indebted to you for sending me a copy of "Vertebrate Zoology" by Dr. Wood.

It is a most welcome addition to my library and will be very useful to me.

The compilation must have taken a great deal of time and work. You must be glad to have it finished successfully.

I have just read your article on "Alder Flycatchers" in "The Auk" with great pleasure and also enjoyed your fine photo.

graphs of the nest
and young.

with many thanks
for the book. I am -

yours sincerely
Katharine C. Harding
