Casey A. Wood Collection

[To Dr. Walter E. Roth]

73 Main Street.
6th March 1922

Dear Doctor

Needless to say I am delighted to hear that there is at last a chance of learning something in the scientific line relating to the South Western portion of the Colony which I call "No Man's Land" it being so little known and so rarely visited.

I feel confident that with you at the head of it, its success will be assured.

Anything that I can do for you in the way of information and experience is at your disposal.

I really envy you as I should like to have gone myself and only wish that some similar prospect would come my way.

Wishing you every success

Yours sincerely

E. A. Hayne.
