May 8th 1925

Dear Dr Wood,

Many thanks for your letter and your bird pamphlets which I much enjoyed, it was most kind of you.

I hope time will permit you to pay me a visit but I shall have a violent south west wind in June so bird life departs to more sheltered places and the north east migrants also go; however it would be a great pleasure to me if you managed to come and I shall leave you to suggest yourself if and when you can manage it.

Yours sincerely,

J. Horsfall

Dear Dr Wood,

I was very sorry not to see you when I called to return your books which I much enjoyed and feel very privileged at being permitted to do so—especially your letters - you have the gift of expression which I envy you.

If Kandy palls will you suggest yourself here for a day or two; I think you'd like it as I have jungle up to the garden with birds and beasts you don't see often elsewhere, I should be delighted if you'd come.

Please keep your cent - I could'nt quite manage the book in toto.

With renewed thanks,

Sincerely yours,

H. Horsfall
