ECONOMIC AND SYSTEMATIC BOTANY.

Washington, D. C., September 16, 1919

Dr. Robert Ridgway,
1030 South Morgan Street,
Olney, Illinois.

Dear Dr. Ridgway:

In answer to your letter of September 10 I will say that I shall be glad to identify such grasses as you will care to send. I expect soon to leave for British Guiana but Mrs. Chase, my assistant, will be able to identify them and will send you a list of the names. As to sedges I would suggest that you send specimens of Carex to Mr. Kenneth K. Mackenzie, 27 William St., New York City. Other genera of sedges probably could be identified by Mr. Maxon. Any specimens that you send to me can be addressed to me at the Smithsonian Institution.

Very truly yours,

A. S. Hitchcock

Systematic Agrostologist.

Washington D.C.

Dear Sir:

I wish to thank you for your courtesy in sending me the letter of introduction to Señor Don Alfaro, which reached me yesterday. I am planning to visit San José in the near future and I shall take pleasure in meeting Dr. Alfaro and presenting this letter.

I appreciate Mr. Mayo's thoughtfulness in bringing the subject to your attention.

Very sincerely
A. S. Hitchcock
