Pls. return when
read. Have heard
nothing since. What
had I better do?

Dear Dr. Casey Wood,

Many thanks for your letter. I have not yet completed my work for the Cambridge History though I have broken the back of it, & till I can see that fairly complete, would rather not begin on the Carians. Meanwhile, however, I have put together notes on the literature of the subject, & can now lay my hands on it. When I take over the coins from Adams at the British Museum I will

let you know.

All good wishes,

yours sincerely

Richard Hare.
