England.

Dear Dr. Casey Wood:

I am deeply indebted to you for your courteous letter of the 12th instant and for your great generosity in presenting to this Library your magnificent work "An Introduction to the Literature of Vertebrate Zoology", which reached me safely. It is indeed a marvellous production, and is a wonderful tribute to your scholarship and indefatigable labors. The volume will be catalogued immediately and made available to students.

Thanking you again, and with very best wishes and kindest regards,

Yours sincerely,

JH:GH

Dr. Casey A. Wood,
Authors' Club,
2 Whitehall Court,
London, S. W. 1,

Dear Sir:

My very good friend Dr. George F. Libby suggests that I write you with reference to your recently published work entitled "Introduction to the Literature of Zoology", which he states is a valuable book of reference, with interesting reading matter, and a very fine bibliography. I recall with gratitude the presentation by you to this Library of your former work "Fundus Oculi of Birds". I would not approach you again were it not that the Library's appropriation has been practically wiped out, and the purchase of all books has had to be discontinued temporarily. It would have been a privilege for me to have bought this new book of yours rather than beg of you a complimentary copy. However, it is unlikely that I can purchase any books for some time to come. If you feel that you would like to befriend the Library again please be assured of our gratitude and deep appreciation.

With kindest regards,

Yours sincerely,

JH:GH

Dear Miss Bates:

Write Dr. Johnson a note asking him to send Prof. John Hosie a book, at the same time replying to this letter in my name that I am very glad to donate through the Blacker Library of Zoology this addition to their library.

C. A. W.

Send me a card with Dr. Hosie's name on it.
