Ridgway Collection

MUSEU PAULISTA
Director Dr. H. VON IHERING
S. PAULO - (BRAZIL)

S. Paulo, 7 de Junho de 1912.

Dear Sir,

I have to thank you the valuable enrichment of the Museum's library with vol.V of „the Birds of North and Middle America.“ I beg you to accept my congratulation to your eminent work. The volume in question is of high importance , also of southamerican birds. It is much to regret that you didnt extend your study on South-american Tyrannidae, for which we want an similar work to the end to determine the generic subdivision.

Always are at your disposition, I myself , the services of this Museumand these of my son Rodolpho.

Under all circumstances believe me

Yours Very Respectfully:

H. v. Ihering

Robert Ridgway, Esq., Curator of Smihsonian Institution. Curator: Division of Birds.
Washington.

São Paulo, (Brazil) May 20th de 1905.

Dear Mr. Bowdler Sharpe.

This letter will you find for occasion of the international Ornithologists Congress under your presidence and I send you by this occasion my best wishes and compliments to you and to all the collegues interested in south american ornithology.

I send you herewith Volume II of our Revista, containing two ornithological papers on of them being my report on the exploration of the Juruá-River by this Museum representing, as I believe, the first amazonian local fauna southward of the Amazon-River. I regret much

that I cannot assist to the congress
because my son is absent, as you
know by his visit.

I send you also two samples
with birds skins destinated for
my friends Count Berlepsch and
Hellmayr. Please give them
to one of both.

I have brought the number of
birds of the State of S. Paulo to
nearly 700 and now new additions
are very rare. Probably no other
State of Brazil is actually so yet
well explored both extensively
and intensively with reference to
mammals and birds as S. Paulo.

Very truly yours

H. von Ihering

P.S. At the same time a letter, referring
to the skins is going to Tring for
Mr. Hellmayr

Dear M. B. Sharpe.

Many thanks for your very useful Handlist!

Have you received my letter also photographs, or have I not sent my portrait; then I shall do so being glad if I could have your.

Should it not be possible that I obtain information on some birds Mains send last year by me – with the scarlet plumage – and of which one at least was

museum and to deliver — what
I had misread by old Sir Emerald
notes encoded wrongly Tobiesps
Wilander..

I have published a note
on this found d. L. annis which
I send when receiving copies.

Very Truly
Yours
Jean Henrivaux
