Feb. 21, 1920.

Dr. Casey Wood,
Stanford University,
Calif.

Dear Sir:

Your letter of the 19th inst. addressed to Geo. L. Fordyce, Youngstown, Ohio, has been referred to me for reply.

I find missing from the complete series of the Wilson Bulletin six numbers. Four of these occur in what is known as "The Old Series", or volumes 1 to 5, which do not properly belong in the present series which is known as the "New Series", or the Wilson Bulletins proper. Nos. 15 and 22 of the "New Series" are missing. There are, therefore, 31 volumes of the complete series, or 25 of the "New Series".

I can furnish the series, except as noted above, for $30, carriage paid. Or the "New Series", except the two numbers - 15 and 22 - for $25, carriage paid.

It is likely that the Nos. 15 and 22 will be reprinted in the near future. The first eight numbers, and 24 and 28 are reprints.

The subscription to the Wilson Bulletin is one dollar the year. I shall enter your subscription for the Emma Shearer Wood Library, McGill University, Montreal, Canada, upon our books.

Yours very truly,

Lynds Jones.
