Dr. Robert Ridgway,
Olney,
Ill.

Dear Mr. Ridgway:

I am enclosing a letter from a lady who has been with us on several of our N.E.A. tripsand who, I discovered, is quite deeply interested in birds.

Her description of the bird in question is too vague for me to do anything with,and if not too much trouble,would greatly appreciate it, if you would let me have a line giving your opinion.

We are hoping to be able before a great while to be able to drive up and spend a day with you at Bird Haven, but I suspect just at present the mosquitos are a bit thick in your woods as they are in ours. They are simply ferocious here.

I am enclosing self-addressed envelope for your convenience in giving me the information desired.

Trusting that things are going well with both you and Mrs. Ridgway, I am

Very sincerely,

D. E. Keen
