GOUCHER COLLEGE
BALTIMORE, MARYLAND

Marine Biological Laboratory.
Woods Hole. Mass. Aug. 15. 1917.

Dr. Casey A. Wood.
Chicago. Ill.

Dear Sir:-

Please accept my sincere thanks for your very splendid monograph on the Dendrus Acuti of Birds.

I had left Baltimore before it was received but have had it sent to me here. It is a very remarkable piece of work and I trust you may soon be able to continue your investigations in this field.

I shall deposit this work in the Library of Goucher College.

Very sincerely yours. Thos. E. Hallicott.
