Dr. Casey Wood,
Museum of Vertebrate Zoology,
Berkeley, Cal., U.S.A.

Dear Sir:-

Replying to your letter of the 13th inst., with regard to the Chinese Starling (Acridotheres cristatellus), I may say that I have very little information in regard to the same.

The only notes I have will be found on Page 20 of the Report of this Department for the year 1921, a copy of which I am mailing you, under separate cover.

I do not think very much has beenwritten with reference to this bird in British Columbia; it is principally centered in the vicinity of Vancouver City, and I understand it has spread as far as Essendale, about 20 miles from Vancouver.

If you desire specimens, I would suggest that you write to Mr. R.A.Cumming, 415 Poplar St., Vancouver, B.C., as I think he might be able to help you in your work.

Hoping that the information we have sent will be of use to you.

Yours very sincerely,

F. Kermode
