BLACKER

Bonn Novbr 14
1860

Dear Sir:

I always expected to meet an occasion to put a parcel to London to which I could join your little things but as I see you want them as soon as possible I will wait no longer and put it separate by Post and hope that the Value of the Specimen will not be inferior to the Cost of Carriage.

I put the parcel at once with this.

The 3 Specimen you selected when in Bonn August 1857 with Sir Rodrick are: 1 Cypridina slate 1 Kimpen wood & 1 Zechstein with Bairdia has been forwarded in the best order Novbr 11. 1857 with the Mineral to the Mus of Practical Geology and it must be there in some drawer. —

I put always to lay in the Rhenish some to replace them. —

I remain Dear Sir with the best Compliments from all and house

yours most truly & obed
Krantz

R. Jones Esq
