Prof Robt. Ridgway.

My Dear Sir.

I enclose herewith a list of a few species of birds I want very badly - I want skins to mount for mus. They are not for sale or exchange anywhere, so I write you in the hope that the exchange list I enclose will contain species you want in exchange for them. I want them in Ad. breeding plumage (especially the gulls) but if can't get such ones will take anyth.

I once had a promise of a pair of Ireland Gulls from the Dust, but the circumstance is no doubt long since forgotten. If you find anything you want and care to exchange plean let me know at once, as I want them as soon as possible. Any of the skins I list can be forwarded at once.

Yours very truly
L. Kumlien.
