old rubbish all this week, but am nearly through it now. There came an enlivening sparkle here & there, as when I came across old letters of G.B.K's to a former Secretary with charming references to his Director, or when Wilkinson's early letters to the same Secretary were in evidence. Kilroe & McHenry have been lending me every assistance in the work: we had a fine laugh the other day when I handed Mac. an old letter of Sidney B's to read, which began somehow like "Dear O'Kelly — "My colleague across the water "must be a copro-lite — good "word, this, out of Kinahan — to "make such a fuss about a "map-receipt." —— Which Mac. was reading aloud, & then, turning over leaf, found the "copro-lite" referred to was —— Kilroe!

C. DAVIES SHERBORN
DONAVIT.

For the rest — we are going to begin field-work in earnest after this week, & leave the rest of the indoor "thorough-cleaning" for a future date — when we finish the survey of Sh. 112.

Kind regards

Yours ever Faithfully

G. W. Lamplugh.

1901

I am changing lodgings next-Wednesday — present Quarters in spite of high tone, not-comfortable: am going into smaller cheaper rooms with more prospect of comfort.
