My dear Percy

I am still a prisoner at home - unable to shake off my rheumatic pains - but I hope to go to London tomorrow.

I was looked to print the lectures & add the diagrams belonging to my part being at the meeting a mistake has been made in offering

How to do the wrong parties
work, or at any rate
asking him for an
estimate. If you will
send a note to Thayer
(on Sunday) who will
write to you I name
some parties whom I
used to employ in writing I
You to get an estimate
for the diagrams from some
one who is accustomed
to such things & will get
us out of the difficulty

Newman has since been
examined & I think thinks
he would do it very well.

With kind regards.

Yours very truly

Henry Lee
