DEPARTMENT OF ANATOMY
OFFICE OF THE DIRECTOR

January 23, 1912

Dr. Casey A. Wood,

Chicago Savings Bank Bldg.,

Chicago, Ill.

Dear Dr. Wood:

I am in receipt of a second circular letter from you in reference to the matter of collecting and preserving birds, etc., of various kinds for your investigation. I shall be glad to collect for you during this coming spring when out in the field collecting other embryological material, as I am particularly interested in mammals. On these trips it would be quite possible to watch out for and secure for you a certain number of birds.

If you have not already corresponded with him, I would suggest that you write to Dr. Thomas S. Roberts, 1603 4th Av. So., of this city, who is undoubtedly aur best posted ornithologist in the state, and to Dr. L.O.Dart, Curtis Court, Minneapolis, who is another enthusiastic ornithologist among my friends.

If we can be of any further assistance to yourself and Dr. Slonaker in this matter, we will gladly to do so.

Yours very sincerely,

Thomas G. Lee
Director
