C. DAVIES SHERBORN
DONAVIT.

1844. Jan^y.

My dear Sir

I have been busily employed for the last two hours in reducing the matrix of the Cnocerax if it succeed it should prove such & shall dispatch it by Pickford to morrow so that it will reach you on Thursday. You will find some small pieces among the stones & I shall be glad to hear it handled safely as also what is its "proper" name. — As Dr Fitton

H B Mackeson

wishes a somewhat accurate
label attached to each specimen
I will attach one at some future
day when in Town – I am
glad to hear the L.I. Collection
increases – I suppose the
Neocomiensis have stirred up
the activity of collectors – Believe
me Dear Sir

Yours very truly
H B Mackeson

– P.S. Should you oblige me with
a line pray inform whether or
no Warburton's term of office
expires this year & if so who is his
successor

S.P. Woodward Esq
