#### TO THE SHAREHOLDERS:

Your Directors submit herewith the Eleventh Annual Report and Consolidated Statements of Account for the year ended 31st December, 1939.

#### RESULTS OF OPERATIONS:

The Net Profit for the year, after providing for depreciation and income taxes, amounted to \$56,515, as compared with a Net Profit of \$44,416 in 1938.

### PLANT:

Worn out machinery was replaced during the year, resulting in expenditures amounting to \$65,376 (as compared with \$19,381 during the previous year) while equipment scrapped amounted to \$17,431, thus resulting in a net increase of \$47,945.

Depreciation amounting to \$37,344 was provided during the year on plant and equipment.

As heretofore, the cost of the necessary repairs to the Company's plants was charged to maintenance expense.

# INVENTORIES:

The Company's inventories, in accordance with its usual practice, have been valued at cost or market, whichever was lower, the necessary provision being made for unusable and unsaleable material.

### FINANCIAL:

The net working capital of the Company at 31st December, 1939, is approximately the same as at the end of the preceding year (after increased plant expenditure as above

referred to and purchases of Preferred stock for redemption), as shown by the following comparison:

31st	December, 1939	31st December, 1938
Current Assets Current Liabilities	\$719,019 94,247	\$687,939 64,575
Net Working Capital	\$624,772	\$623,364

Current Assets include Cash on Hand and on Deposit amounting to \$227,705. The Current Assets are equivalent to approximately eight times the Current Liabilities.

#### CAPITAL STRUCTURE:

In accordance with views expressed at the last Annual Meeting, steps were taken to re-organize the capital structure of the Company in accordance with the plan submitted to the Shareholders, by which the former Preferred Shareholders received four (4) shares of new Common stock for each then existing share of Preferred stock, and the former Common Shareholders received one (1) share of new Common stock for each five (5) then existing shares of Common stock. The approval of the Shareholders at a special meeting having been obtained, and the necessary legal steps (including the securing of Supplementary Letters Patent) having been taken, this re-organization was consummated. The effect of the re-organization is indicated in the accompanying financial reports.

# EMPLOYEES:

Your Directors desire to place on record their appreciation of the continued loyal and efficient service rendered by the employees during the year.

### PROSPECTS:

Further development throughout the year has taken place in new products and in the marketing of the Company's products generally. As far as can be determined under existing conditions, it is expected that continued improvement should result in the ensuing year.

By Order of the Board,

P. F. SISE, President.
